ADDRESS REPLY TO RADIOLOGICAL HEALTH UNIT
REFERTO MATERIALS LICENSE NO 955 - 0139
REFERENCE NO 1
AMENDMENT NO 6
COL APPLICATION NO 11061
L R 0139

Dear Mr. O'Hear:

Enclosed herewith is State of New York Radioactive Materials License assigned to your company to possess and use radioactive materials licensed therein pursuant to the State of New York Industrial Code Rule No. 38, "Radiation Protection" (12 NYCRR 38), as amended effective September 1, 1971.

IMPORTANT:

- A. This letter shall be retained with this license.
- B. Your attention is directed to Section 38.7 entitled "Security". The written request submitted to us for a waiver from filing a security bond pursuant to subdivision (c) has been approved, conditioned in the license, and accordingly, your company has fulfilled the requirements of this section at this time. Pursuant said Code Rule, this waiver shall be in effect during the entire period of your license. It follows that: (1) any changes in your company financial responsibility to assure reimbursement to the Industrial Commissioner pursuant to subdivision (c) which may affect our waiver approval must be brought to our attention immediately, and (2) pursuant to Section 38.11 entitled "Duration of Licenses", in addition to filing an application more than 30 days prior to the expiration date of your license for a renewal of the license, your company must file either a new security bond with us or comply with subdivision (c) of Section 38.7 which must be approved by the Industrial Commissioner. Should your company decide to seek a continuation of the waiver approval pursuant to subdivision (c), your company must provide us with a final audited balance sheet for the past year certified by a certified public accountant.

Please contact us directly if you have any questions, or if we may be of further assistance to you concerning this matter.

Very truly yours,

CARL J. MATTEI, Director
